MT30 Multi-Media Terminal

PAX's MT30 is a fully featured customer-facing, multimedia POS device which offers retailers an innovative branding channel. Combining high-security payment, outstanding durability and PCI compliance, the MT30 features a responsive capacitive touch screen and electrostatic pen to enable electronic signature capture and excellent finger touch responsiveness.

Consumers can enter their PINs using the tactile keypad, protected by an integrated privacy shield. Optional signature capture capability allows retailers to streamline transactions.

PAX's MT30 is the perfect platform to deploy value-added branding and messaging.

Your Payment Partner of Choice

MT30 Multi-Media Terminal

- Cost-effective, highly durable
- Supports magnetic stripe and smart card payments
- Multi-port functionality: RS232, USB, LAN

SPECIFICATIONS

Processor
32-bit MIPS

Memory
64MB (32MB Flash, 32MB SDRAM)

Display
4.3 inch 480 x 272 pixel color TFT LCD
Projective Capacitive Touch Panel with stylus

Keypad
PCI PTS 2.1 approved
ADA style keypad
10 numeric & 3 function keys

Magnetic Card Reader
Track 1/2/3, bi-directional

Smart Card Reader
EMV L1 & L2 certified

Card Slots
4 SAM Slots, ISO7816

Communication
Ethernet
Modem (optional):
Sync. (HDLC up to 9600bps)
Async. (V.92, up to 56Kbps)

Peripheral Ports
2 x RS232, 1 x LAN
1 x USB Device

Security
DUKPT, Master/Session, DES, 3DES
ANSI/ISO9564 format 0, 1, 3
PIN ciphered key algorithm
ANSI X9.9/X9.19 MAC algorithm

Environmental
0°C to 50°C (32°F to 122°F) operating temperature
10% to 90% relative humidity, non-condensing
-20°C to 70°C (-4°F to 158°F) storage temperature

Voltage
Input: 100~240VAC, 50Hz/60Hz, 0.5A
Output: 12VDC,1A

Physical
Length: 257mm
Width: 178mm
Height: 58 mm

Weight
1100g

Certification
PCI PTS 2.1
EMV L1 & L2

POSDATA®
PAYMENT SOLUTIONS

About POSDATA

Who We Are
POSDATA is a value added distributor of electronic payment technologies, with a focus on providing solutions and expertise to resellers in the channel. We are experts in key encryption and payment security and provide a complete portfolio of services to aid in the configuration,encryption, deployment, installation, repair and management of payment technologies.

40+ Years of Experience
Our experts have been serving industry channel members since 1973. Identifying better technologies and systems to process payments is our expertise, and over the years we have built a solid network of hardware manufacturers to provide the most advanced payment point of sale solutions available.

Why Choose POSDATA?

Expert Technical Support
Our experts are always available to suggest products and solutions for your needs. We stay up to date on PCI compliance and payment security strategies and keep you apprised of important information.

Outstanding Access to Top Manufacturers
POSDATA maintains strong strategic partnerships with the leading manufacturers in payment technologies. We pride ourselves on knowing every detail about the latest products on the market and passing this information along to the channel.

Systems Engineering
We provide the engineering expertise to assist channel partners with the integration of payment terminals into existing system infrastructures.

Complete Deployment Services
We specialize in custom sytem setups including configuration, custom screens and software loading. We provide product imaging, inspection, asset tagging, custom packaging and shipping services to ensure your technologies arrive ready for operation right out of the box. Additionally, we can assist our channel partners with installation and training.

Responsive Customer Service
Every phone call and email is responded to promptly, completely and accurately by our customer serviceÅˆæ̨ È

Lifelong Product Support
Our Life Cycle Services provide lifelong support of payment technologies after initial installation, including product repair, mobile device management, warranty management, product refreshes, and e-waste recycling. With our advance exchange program, we keep replacement supplies in stock and immediately send them out to minimize system downtime.
